## De-constructing an old dualism

# Wadden Sea Coast in the Anthropocene

**Strategic-political  
implications**

# Integration of natural and cultural values into a common heritage

- New interdisciplinary scientific approaches on natural and cultural landscape heritage
- New community engagement in discussing and developing ideas and concepts
- New trans-boundary policy strategies to bridge the divide between nature and culture

# **An urgent call for integration:** Protecting natural and cultural values of the Wadden Sea Coast in the Anthropocene
