

Program

Sediment NAAR EEN
RIJKE WADDENZEE

9.00 u.	Welcome	Floris van Bentum
	Working Method	Arjen Bosch (vz.)
	Position Paper	Luca van Buren (Deltares)
	Projectinventory	Floris van Bentum

10.15 – 10.45 u. Break

Panel discussion

Conclusions

Floris van Bentum

12.00 u. Closing

11-01-11

PROGRAMMA NAAR EEN
RIJKE WADDENZEE

Projectinventory
On Silt Dynamics

Floris van Bentum

Towards a trilateral research agenda,
Leeuwarden (NL), December 9, 2010

PROGRAMMA NAAR EEN
RIJKE WADDENZEE

Index

Sediment NAAR EEN
RIJKE WADDENZEE

- Introduction
- Integration of projects
- Interviews
- Results
- Link with position paper
- Follow up

11-01-11

Introduction

Sediment NAAR EEN
RIJKE WADDENZEE

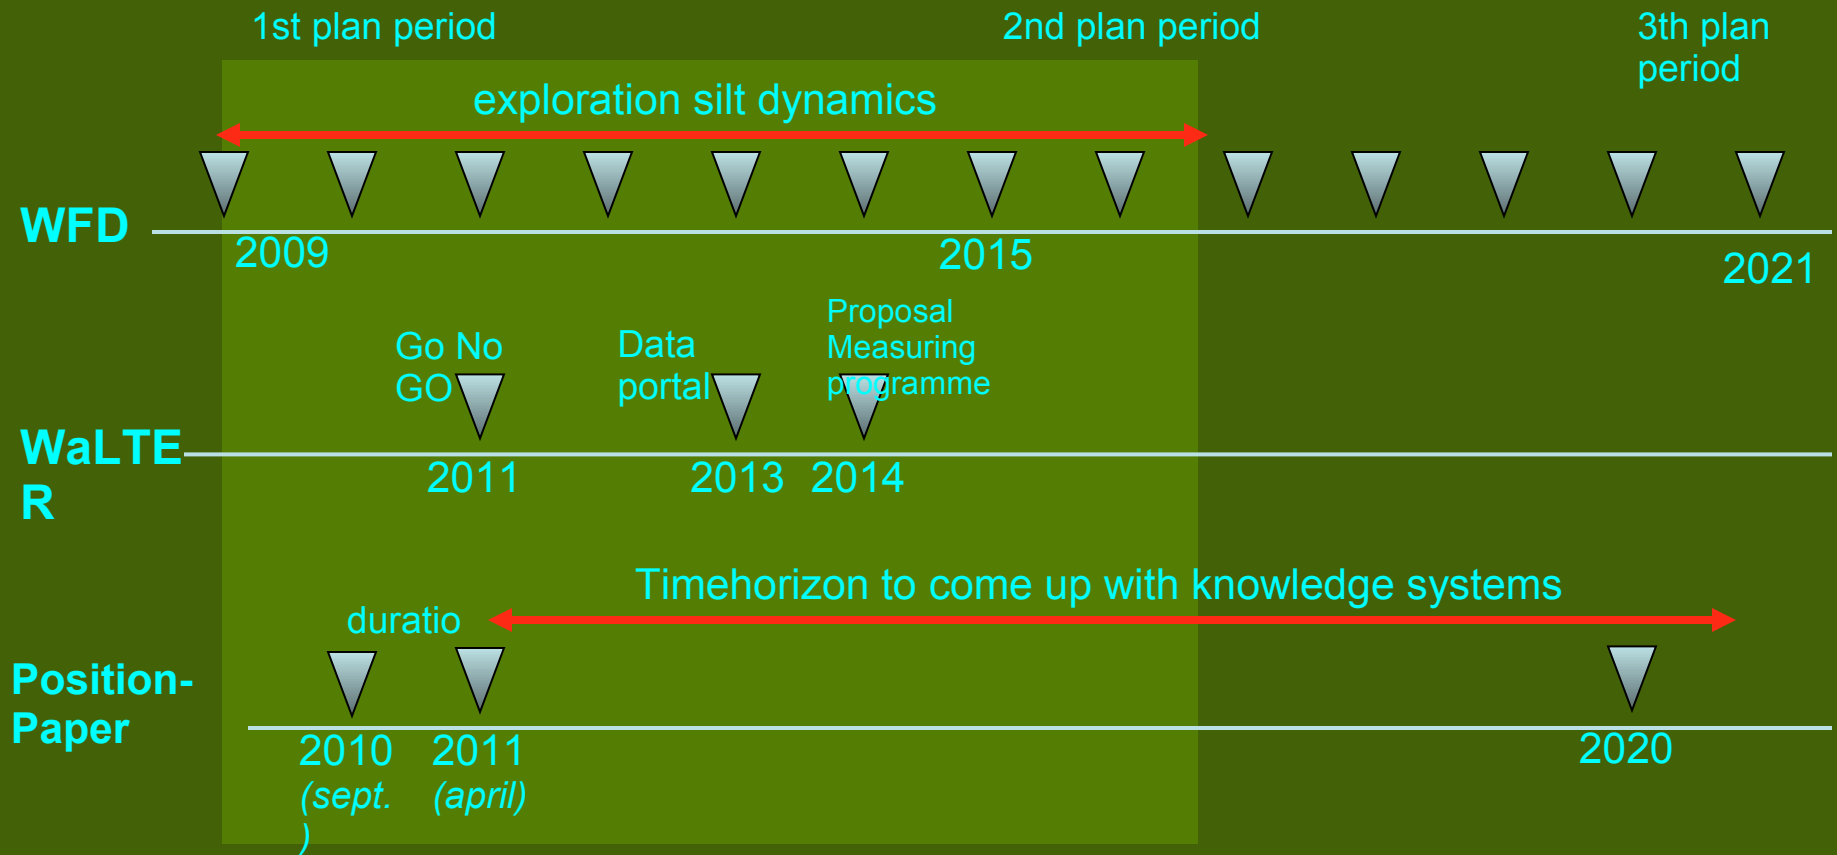

- What is the problem with fine sediment?
- Eems-Dollard: increase
- Dutch Waddensea: what and were?
- Facts versus feelings
- Cause: monitoring diverted

11-01-11

Integration of projects

Sediment NAAR EEN
RIJKE WADDENZEE

Interviews

Sediment NAAR EEN
RIJKE WADDENZEE

- The need to unite and gather research
- Consistency and overall goals are lacking
 - For knowledge as well as for monitoring
- Only monitoring there where fundamental effects are expected
- Bringing science and practice closer together

11-01-11

Results

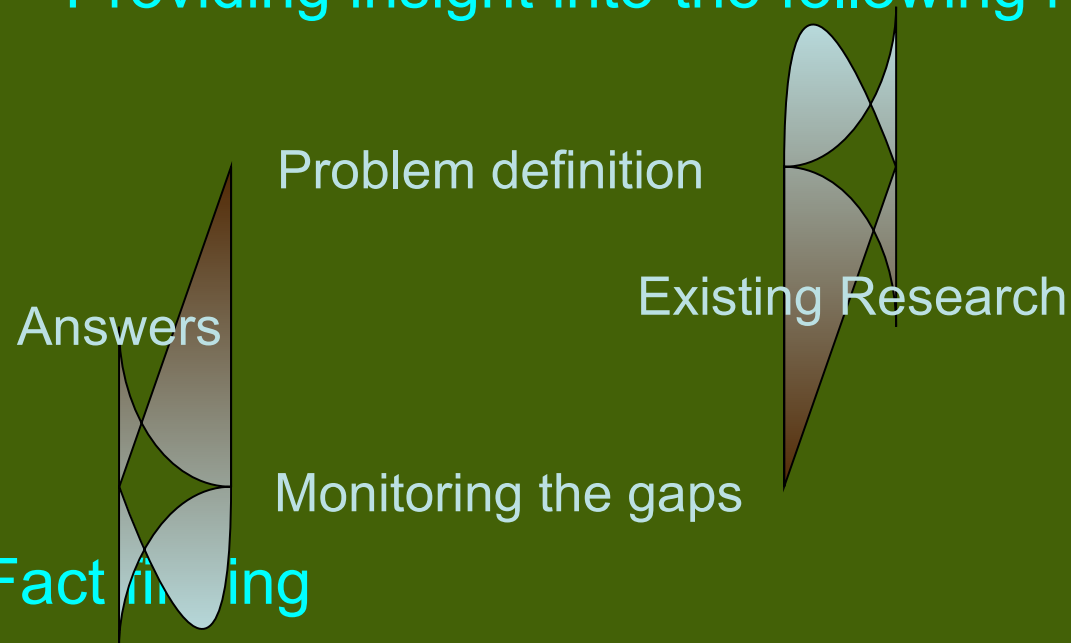

Sediment NAAR EEN
RIJKE WADDENZEE

- Fairway Ameland - Holwerd (Local)
- Harlingen harbour, extra outlet IJsselmeer (Regional)
- Eems delta / Eems area (Tidal basin)

11-01-11

- Link with the Position Paper
 - Providing insight into the following relationship:

- Fact finding
- Increase the coordination between government and users

Follow up

- How can we optimize ?
- International scope: *Extending Trilateral*
